

Minutes

April 7, 2017 at 10:30 am in the DPW conference room

1. There were no comments from the Public.
2. March Minutes were accepted as final.
3. We went through all the actions and decided on who was championing most of them and their status. See Action List April 2017.
4. School Green Team update- Frank could not make the meeting so Marnie will meet with him separately.
5. EcoWeekend- Mimi, Janet, and Allison will be away for EcoWeekend. They will prepare their parts beforehand and leave materials in appropriate places. Volunteers will come from the Borough Council and students from the High School.
6. Marnie applied for the Sustainable Jersey \$2000 grant and we wont find out if we got it until days before EcoWeekend. She spoke to Rich Shiola about this funding dilemma. The Borough will allot some funds to the Green Team. She is also applying for \$1000 through the Town Club Grant, and some of the projects can be funded through Clean Communities Grant.
7. The purchases we are making are bags, banners, trees, composters, and rainbarrels.
8. We are printing out fliers at the High School for the large format and the DPW for black and white and the Borough Hall for Color letter size.
9. We would like to increase the size of participation in front of the Recycling Center. This can be called EcoCenter. Janet will invite the Garden Club to have a booth. Mimi suggested Marnie's Organic Co-op. Other suggestions are the Environmental Commission, Lakes Management Committee, and Woodlands Management Committee. We could have DPW stormwater management fliers out there and others. Marnie will talk to Frank about having student groups and volunteers.
10. Marnie will meet with Ryan and the Shawn Bennet to find out the status of their actions.
