TO: Honorable Mayor and Borough Council

SUBJ: Manager's Report

CC: Robert Oostdyk, Borough Attorney

The following represents the Manager's report for the Borough Council meeting of January 25, 2021.

**Annual Budget Process** – Work continues on our annual budget proposal. To date, two public sessions have been held to discuss the Borough, water and sewer operating budgets have been discussed. Scheduled for our February 8<sup>th</sup> Borough Council meeting will be the annual capital budget review.

Joint Covid-19 Testing Site with Town of Boonton – I have been contacted by the Town of Boonton's Public Health Nurse inquiring about a potential partnership with Boonton for a Covid-19 testing site. Our involvement in the partnership would be limited to assistance with getting the word out to residents via social media, the Borough website, Nixle alerts, etc. Attached to this report, you will find a copy of the email from by Ms. Bendett, along with samples of materials that would go out should the site move forward. I would appreciate some input regarding this request during our upcoming Borough Council meeting.

As always, I encourage anyone with questions or concerns to reach out to me.

### Good morning,

My name is Mandi Bendett, I am the public health nurse for the Town of Boonton, I was given permission by Mr. Neil Henry to speak on his behalf, regarding recurring COVID-19 testing clinics amongst towns. I have also copied our health educator, Mrs. Kris Wilsusen, and our Health Officer, Mr. Peter Tabbot, on this email. Mrs. Wilsusen will be apart of the planning and coordination process, along with myself.

Mrs. Wilsusen was approached by Mrs. Wendy Long from the Morris County Chamber of Commerce regarding drive through COVID-19 testing clinics for the Town of Boonton through a third party company, AP Mobility Plus, LLC. Last week we had a telephone conference with Mr. Bob Chittenden, the founder of the company, regarding logistics of the clinic. Most recently, Mr. Chittenden's company produced successful testing clinics in many towns and most recently in Mendham Township. The idea that was proposed, and what I am proposing to you, is offering the clinic to residents of Mountain Lakes as well as Boonton Township due to the interconnectivity between towns. It was suggested that I reach out with regards to coordination and planning, if you choose to participate.

With regards to logistics, as briefly mentioned, the clinic will be drive through based (with the possibility of doing a walk up clinic in a centralized location for those with transportation difficulties). Mrs. Sarah Ur, from Boonton Care Center has graciously offered her space for the drive through portion. The company would bring in all required personnel, with the exception of a uniformed officer who (in the past) directs traffic, hands out frequently asked questions document and checks identification (to ensure they are residents of the participating towns). There is no out of pocket cost for the testing, however, if the resident has insurance their card is requested for reimbursement purposes. The turn around time for results is roughly 2-4 days and all results are reviewed by a licensed physician. The residents will be required to make an appointment ahead of time via a personalized website for the town that the company manages; walk ins are permitted, however there may be a wait time for those residents.

One aspect that appeals to me the most is we can customize the frequency and number of days per week. Many are having difficulty with testing; personally, I would like to open an exclusive timeframe (whether it is a day or first few hours of clinic time) to first responders of all participating towns, so that they may have the access to testing as well. Mr. Chittenden is wonderful to work with and is very open to however we would like to customize our clinics based off need of the community.

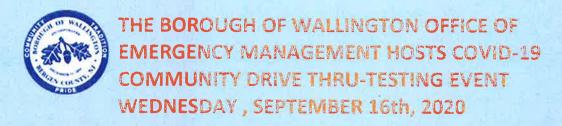

Attached, I have provided some documents from Mr. Chittenden as samples of what have been provided to residents at previous clinics. Both myself and Mrs. Wilsusen think this would be a wonderful opportunity to come together as towns to offer recurring COVID-19 testing for our residents. We are hopeful of your interest and hope to work together to launch this testing clinic.

Thank you so much for your time and we hope to hear from you soon!

Mandi Bendett, BSN, RN, Public Health Nurse Rockaway Township, Division of Health The Town of Boonton, Health Department 100 Washington Street, Boonton NJ 07005 (973) 402-9410 extension 627 Business

# Mendham Community Drive-Through Testing Event PLEASE REMAIN IN YOUR VEHICLE AT ALL TIMES

	ANCE CARD READY There is no cost to you for this test and no balance, co-pay,
co-insurance or deductil	ble will be billed under any circumstance
Do I need an appointment?	Yes. If you need to register while waiting in your vehicle, please use your cell phone and complete a registration at:
	https://caregps.us/msts
What do I need to bring with me?	Please bring a state-issued ID and your insurance card with any supplemental coverage.
How and when will I get results?	The average time to receiving results is 2–4 days. All results should be completed by Tue the 12th. Most will be completed well before; however, some results are inconclusive and will require retesting of the same sample.
	Additionally, some family members will receive results prior to others. This is normal as the specimens are tested in batches which may not be together.
	When your results are ready, we'll email and/or text your result with a secure link to retrieve a copy of your results.
How is my sample for testing collected?	Health care staff will perform the COVID-19 swab test while you remain in the vehicle. This is done by inserting the swab into your nostril approximately 1 inch into the nasal passage (midway) with the most visible drainage or the nostril that is most congested if drainage is not present. The swab is rotated several times, removed gently and this process is repeated on the other side.
What is the testing methodology?	Molecular PCR testing is considered the "gold standard" in SARS-CoV-2 detection. This test detects RNA (or genetic material) that is specific to the virus and can detect the virus within days of infection, even those who have no symptoms.
Why do you ask for insurance information?	Testing is at no cost for you. When you provide your insurance information, the medical team bills your insurance for reimbursement. There is no balance billing back even if insurance does not cover the test.
Who can I contact if I have questions about my result, or didn't receive my result by the date indicated?	You will be contacted by phone by a physician to follow-up if COVID-19 is detected. Most negative tests will also receive a call to confirm receipt of the information and answer questions. Additional questions may be directed by email to covid19@caregps.health

Re: Police Chaplain Program

As you review the proposed Police Chaplain Ordinance, I would like to take this opportunity to give a brief overview of the purpose of the Police Chaplain Program.

According to the Police Chaplain Training Program guidelines, the primary role of the Police Chaplain is to be a "clergyperson with a special interest and training for providing emotional and spiritual care in the high powered and dangerous world of law enforcement. The care is offered to all people, regardless of race, gender, sexual orientation, national origin, creed, or religion. It is offered without cost or the taint of proselytizing."

With the above in mind, I would direct you to the 2019 Attorney General Directive 2019-1, known as the "New Jersey Resiliency Program for Law Enforcement." The directive requires that each law enforcement agency must appoint one Resiliency Program Officer (RPO). The RPO "instills a positive culture for law enforcement officers by providing them with the tools to withstand, recover, and grow in the face of stressors, trauma, and the changing demands of their unique work." One such tool, listed under Chapter III. Sub-section C. of the directive, encourages agencies to offer officers support programs such as, "chaplain services, where an officer can confidentially speak with a clergy member who has gone through the Police Chaplain Training Program." In Mountain Lakes, we have three such clergy members that have graduated the mandatory program.

The Police Chaplain is as the name implies, the Chaplain for the Mountain Lakes Police Department. He or she becomes an official part of the MLPD and is bound by very specific policies and procedures. The Chaplain is someone with specialized training that the officers can avail themselves of as needed.

Should you have any additional questions, please feel free to reach out.

Best Regards,

**Chief Shawn Bennett**

### Fact Sheet

## What is AT&T Planning in Mountain Lakes?

AT&T, one of the world's leading providers of telecommunications service, is planning a network upgrade in various Morris County communities by installing a new 144-fiber telecommunications cable. This cable will improve the capacity of AT&T's network, which is used to carry voice and data traffic.

AT&T's plan is for the new cable to be placed on existing utility poles located in the public right-of-way. The installation work will be undertaken in compliance with all lawful utility construction permit requirements, including traffic control and, in the event of any pavement disturbance, pavement restoration.

While AT&T may also deploy other cables in Mountain Lakes right-of-way from time to time, AT&T does not run its own cables for residential or small business customers. AT&T will not be replicating the existing telephone networks maintained by the incumbent provider (Verizon) which extends to every customer location.

### Why is AT&T seeking a Borough Council resolution?

Verizon places poles and conduits in the public right of way pursuant to a municipal consent. Under Federal law, specifically Section 251(b)(4) of the Federal Telecommunications Act, 47 U.S.C. 251(b)(4) (copy enclosed), Verizon is obligated to make spare pole and conduit space available to other carriers. Verizon and AT&T have an agreement to accomplish this sharing, and this agreement requires AT&T to obtain consent from the Borough Council for this activity or alternatively confirmation that such consent is not required by the Borough Council.

## Can the Borough Council Reject the Request?

Under Federal law, specifically Section 253 of the Federal Telecommunications Act, 47 U.S.C. 253 (copy enclosed), the Borough Council may not withhold approval, but it may impose reasonable conditions. The proposed form of resolution which accompanies this fact sheet contains the types of conditions that are typically imposed.

### What Sort of Fee is Allowable?

The Borough may not impose a tax on AT&T's cable, but it is entitled to recover any costs that it may incur in reviewing and approving AT&T's request. The relevant state statute is N.J.S.A. 54:30A-124 (copy enclosed).

### (c) Additional obligations of incumbent local exchange carriers

In addition to the duties contained in subsection (b), each incumbent local exchange carrier has the following duties:

### (1) Duty to negotiate

The duty to negotiate in good faith in accordance with section 252 of this title the particular terms and conditions of agreements to fulfill the duties described in paragraphs (1) through (5) of subsection (b) and this subsection. The requesting telecommunications carrier also has the duty to negotiate in good faith the terms and conditions of such agreements.

### (2) Interconnection

The duty to provide, for the facilities and equipment of any requesting telecommunications carrier, interconnection with the local exchange carrier's network--

- (A) for the transmission and routing of telephone exchange service and exchange access;
- (B) at any technically feasible point within the carrier's network;
- (C) that is at least equal in quality to that provided by the local exchange carrier to itself or to any subsidiary, affiliate, or any other party to which the carrier provides interconnection; and
- (D) on rates, terms, and conditions that are just, reasonable, and nondiscriminatory, in accordance with the terms and conditions of the agreement and the requirements of this section and section 252 of this title.

### (3) Unbundled access

The duty to provide, to any requesting telecommunications carrier for the provision of a telecommunications service, nondiscriminatory access to network elements on an unbundled basis at any technically feasible point on rates, terms, and conditions that are just, reasonable, and nondiscriminatory in accordance with the terms and conditions of the agreement and the requirements of this section and section 252 of this title. An incumbent local exchange carrier shall provide such

unbundled network elements in a manner that allows requesting carriers to combine such elements in order to provide such telecommunications service.

### (4) Resale

The duty--

- (A) to offer for resale at wholesale rates any telecommunications service that the carrier provides at retail to subscribers who are not telecommunications carriers; and
- (B) not to prohibit, and not to impose unreasonable or discriminatory conditions or limitations on, the resale of such telecommunications service, except that a State commission may, consistent with regulations prescribed by the Commission under this section, prohibit a reseller that obtains at wholesale rates a telecommunications service that is available at retail only to a category of subscribers from offering such service to a different category of subscribers.

### (5) Notice of changes

The duty to provide reasonable public notice of changes in the information necessary for the transmission and routing of services using that local exchange carrier's facilities or networks, as well as of any other changes that would affect the interoperability of those facilities and networks.

### (6) Collocation

The duty to provide, on rates, terms, and conditions that are just, reasonable, and nondiscriminatory, for physical collocation of equipment necessary for interconnection or access to unbundled network elements at the premises of the local exchange carrier, except that the carrier may provide for virtual collocation if the local exchange carrier demonstrates to the State commission that physical collocation is not practical for technical reasons or because of space limitations.

### (d) Implementation

### (1) In general

Within 6 months after February 8, 1996, the Commission shall complete all actions necessary to establish regulations to implement the requirements of this section.

### (2) Access standards

In determining what network elements should be made available for purposes of subsection (c)(3), the Commission shall consider, at a minimum, whether--

(A) access to such network elements as are proprietary in nature is necessary; and

### § 251. Interconnection, 47 USCA § 251

(B) the failure to provide access to such network elements would impair the ability of the telecommunications carrier seeking access to provide the services that it seeks to offer.

### (3) Preservation of State access regulations

In prescribing and enforcing regulations to implement the requirements of this section, the Commission shall not preclude the enforcement of any regulation, order, or policy of a State commission that--

- (A) establishes access and interconnection obligations of local exchange carriers;
- (B) is consistent with the requirements of this section; and
- (C) does not substantially prevent implementation of the requirements of this section and the purposes of this part.

### (e) Numbering administration

### (1) Commission authority and jurisdiction

The Commission shall create or designate one or more impartial entities to administer telecommunications numbering and to make such numbers available on an equitable basis. The Commission shall have exclusive jurisdiction over those portions of the North American Numbering Plan that pertain to the United States. Nothing in this paragraph shall preclude the Commission from delegating to State commissions or other entities all or any portion of such jurisdiction.

### (2) Costs

The cost of establishing telecommunications numbering administration arrangements and number portability shall be borne by all telecommunications carriers on a competitively neutral basis as determined by the Commission.

### (3) Universal emergency telephone number

The Commission and any agency or entity to which the Commission has delegated authority under this subsection shall designate 9-1-1 as the universal emergency telephone number within the United States for reporting an emergency to appropriate authorities and requesting assistance. The designation shall apply to both wireline and wireless telephone service. In making the designation, the Commission (and any such agency or entity) shall provide appropriate transition periods for areas in which 9-1-1 is not in use as an emergency telephone number on October 26, 1999.

### (f) Exemptions, suspensions, and modifications

### (1) Exemption for certain rural telephone companies

### (A) Exemption

Subsection (c) of this section shall not apply to a rural telephone company until (i) such company has received a bona fide request for interconnection, services, or network elements, and (ii) the State commission determines (under subparagraph (B)) that such request is not unduly economically burdensome, is technically feasible, and is consistent with section 254 of this title (other than subsections (b)(7) and (c)(1)(D) thereof).

### (B) State termination of exemption and implementation schedule

The party making a bona fide request of a rural telephone company for interconnection, services, or network elements shall submit a notice of its request to the State commission. The State commission shall conduct an inquiry for the purpose of determining whether to terminate the exemption under subparagraph (A). Within 120 days after the State commission receives notice of the request, the State commission shall terminate the exemption if the request is not unduly economically burdensome, is technically feasible, and is consistent with section 254 of this title (other than subsections (b)(7) and (c) (1)(D) thereof). Upon termination of the exemption, a State commission shall establish an implementation schedule for compliance with the request that is consistent in time and manner with Commission regulations.

### (C) Limitation on exemption

The exemption provided by this paragraph shall not apply with respect to a request under subsection (c) from a cable operator providing video programming, and seeking to provide any telecommunications service, in the area in which the rural telephone company provides video programming. The limitation contained in this subparagraph shall not apply to a rural telephone company that is providing video programming on February 8, 1996.

### (2) Suspensions and modifications for rural carriers

A local exchange carrier with fewer than 2 percent of the Nation's subscriber lines installed in the aggregate nationwide may petition a State commission for a suspension or modification of the application of a requirement or requirements of subsection (b) or (c) to telephone exchange service facilities specified in such petition. The State commission shall grant such petition to the extent that, and for such duration as, the State commission determines that such suspension or modification--

- (A) is necessary--
  - (i) to avoid a significant adverse economic impact on users of telecommunications services generally;
  - (ii) to avoid imposing a requirement that is unduly economically burdensome; or
  - (iii) to avoid imposing a requirement that is technically infeasible; and
- (B) is consistent with the public interest, convenience, and necessity.

The State commission shall act upon any petition filed under this paragraph within 180 days after receiving such petition. Pending such action, the State commission may suspend enforcement of the requirement or requirements to which the petition applies with respect to the petitioning carrier or carriers.

ALSTERNY THE THE THE PARTY OF T

### (g) Continued enforcement of exchange access and interconnection requirements

On and after February 8, 1996, each local exchange carrier, to the extent that it provides wireline services, shall provide exchange access, information access, and exchange services for such access to interexchange carriers and information service providers in accordance with the same equal access and nondiscriminatory interconnection restrictions and obligations (including receipt of compensation) that apply to such carrier on the date immediately preceding February 8, 1996, under any court order, consent decree, or regulation, order, or policy of the Commission, until such restrictions and obligations are explicitly superseded by regulations prescribed by the Commission after February 8, 1996. During the period beginning on February 8, 1996, and until such restrictions and obligations are so superseded, such restrictions and obligations shall be enforceable in the same manner as regulations of the Commission.

### (h) "Incumbent local exchange carrier" defined

### (1) Definition

For purposes of this section, the term "incumbent local exchange carrier" means, with respect to an area, the local exchange carrier that--

- (A) on February 8, 1996, provided telephone exchange service in such area; and
- (B)(i) on February 8, 1996, was deemed to be a member of the exchange carrier association pursuant to section 69.601(b) of the Commission's regulations (47 C.F.R. 69.601(b)); or
- (ii) is a person or entity that, on or after February 8, 1996, became a successor or assign of a member described in clause (i).

### (2) Treatment of comparable carriers as incumbents

The Commission may, by rule, provide for the treatment of a local exchange carrier (or class or category thereof) as an incumbent local exchange carrier for purposes of this section if--

- (A) such carrier occupies a position in the market for telephone exchange service within an area that is comparable to the position occupied by a carrier described in paragraph (1);
- (B) such carrier has substantially replaced an incumbent local exchange carrier described in paragraph (1); and
- (C) such treatment is consistent with the public interest, convenience, and necessity and the purposes of this section.

### (i) Savings provision

Nothing in this section shall be construed to limit or otherwise affect the Commission's authority under section 201 of this title.

### (a) In general

No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service.

### (c) State and local government authority

Nothing in this section affects the authority of a State or local government to manage the public rights-of-way or to require fair and reasonable compensation from telecommunications providers, on a competitively neutral and nondiscriminatory basis, for use of public rights-of-way on a nondiscriminatory basis, if the compensation required is publicly disclosed by such government.

### (d) Preemption

If, after notice and an opportunity for public comment, the Commission determines that a State or local government has permitted or imposed any statute, regulation, or legal requirement that violates subsection (a) or (b), the Commission shall preempt the enforcement of such statute, regulation, or legal requirement to the extent necessary to correct such violation or inconsistency.

## CONSTRUCTION OFFICE MONTHLY ACTIVITY REPORT

### **OCTOBER 2020**

### **ADMINISTRATIVE SUMMARY**

An influx of small-scale building and mechanical applications, along with another building at the Enclave project dominated the workload for the month of October. The Enclave fees are reflected in the report with the bulk of the inspection work to occur during 2021.

The slight increase in department revenues will begin to be seen from the modified fee schedule. Historically there is a decrease in the number of applications submitted prior to the holiday season, although the requests for inspections increase as people look to complete their projects prior to the holidays.

## CONSTRUCTION OFFICE MONTHLY ACTIVITY REPORT

### **NOVEMBER 2020**

### **ADMINISTRATIVE SUMMARY**

Due to several holidays falling on inspection days, staff needed to modify their schedules to continue providing service to permit holders. Even with the loss of several inspection days, staff performed inspections at levels of typical months.

We are now seeing applications being submitted for more interior alterations and small additions as opposed to past months where the bulk of the applications were for mechanical items and maintenance projects. These new applications are timed for starts in 2021.

# CONSTRUCTION OFFICE MONTHLY ACTIVITY REPORT

### **DECEMBER 2020**

### **ADMINISTRATIVE SUMMARY**

Everyone is looking forward to the end of 2020 and a better start to the new year. While new applications were received, the year is ending on a low note. The overall numbers for the year were good as a result of the large projects initiated during the year. The effects of the corona virus is still being felt by property owners who have been hesitant about moving forward with projects during these uncertain times.

The expectation is that with advances in combating the current health issues, property owners will begin to look forward to a more normal course and start thinking about improvements to their properties.
